Professional Summary

Full Stack Developer with 1.5+ years of experience building web and mobile applications using React, Node.js, Express.js, TypeScript, and MySQL. Experienced in real-time systems, subscription-based platforms, REST APIs, authentication workflows, and database-driven applications.

Skills

- **Languages** JavaScript, TypeScript, SQL
- **Frontend**: React.js, React Native, HTML5, CSS3, Tailwind CSS
- **Backend**: Node.js, Express.js, REST APIs, JWT Authentication, OAuth, Zod
- **Database**: MySQL, Database Design, Transactions, Row Locking
- **Tools**: Git, GitHub, Postman, AWS EC2, PM2, Docker, Socket.io

Work Experience

Visiontrek Communication , Mohali

Apr 2025 - Present

Fullstack Developer

- Developed and maintained full-stack web and mobile applications using React, React Native, Node.js, Express, MySQL, JavaScript, and TypeScript.
- Built Revenue Analytics Portals, Admin Dashboards, authentication systems, and VAS API integrations used in production environments.
- Integrated Google Play subscriptions, OTP authentication, OAuth workflows, and REST APIs.
- Contributed to JavaScript-to-TypeScript migration efforts and supported AWS-hosted production systems and database backups.

Solitaire Infosystems , Mohali

Oct 2024 - Apr 2025

React.js Intern

- Developed frontend features using React.js and collaborated on backend API integrations.
- Gained practical experience with Node.js, SQL databases, REST APIs, debugging, and feature delivery.

Project Work

❖ ETHIO LUDO | React, Node.js, Express, MySQL

Developed a real-time multiplayer gaming platform used by production users.

Implemented room management, game-board logic, authentication, redeem workflows, and real-time synchronization using Socket.io.

Owned major portions of frontend, backend, database design, and TypeScript migration efforts.

❖ Pikashoo | React Native, Node.js, Express, MySQL

Built a subscription-based mobile application with OTP authentication, Google OAuth, and Google Play In-App Purchases (IAP).

Implemented subscription lifecycle management, plan-based access control, and content categorization services.

Integrated TMDB APIs and developed backend services supporting multiple subscription tiers.

❖ SpendSafe | React, Node.js, Express, MySQL

Developed a full-stack expense and wallet management application with JWT-based authentication.

Implemented transaction-safe wallet operations using MySQL transactions and SELECT FOR UPDATE row locking.

Prevented race conditions and double-spending scenarios while maintaining data consistency.

Education

Chandigarh Group of Colleges , Mohali

Aug 2022 - Jun 2025

Bachelor of Computer Applications (B.C.A)
